

The American Recovery and Reinvestment Act (ARRA) was signed into law on February 17, 2009 to preserve and create American jobs and invest in environmental protection and infrastructure. Hach Company is prepared to support ARRA projects by providing you with the highest quality products for open channel **flow monitoring applications**.

About Hach

Hach Company is a wholly owned subsidiary of Danaher Corporation, headquartered in Washington D.C., which includes over 30 companies working in the Process/Environmental Controls industries with over 20,000 U.S. employees.

Originally founded in Ames, Iowa in 1947, Hach has a long tradition of leadership in the American water and wastewater industry. We manufacture the most complete line of water analysis products with the most EPA-approved methods.

With over 1,300 U.S. employees, Hach is headquartered in Loveland, Colorado. Sales, marketing, research and development, instrument manufacturing and operations functions are located in Loveland, Colorado. Flow meter customer and technical support are located in Frederick, Maryland.

Hach Products Meet Buy American Requirements

Enclosed is a list of Hach's flow monitoring instruments that meet Buy American requirements for your ARRA projects. Due to Hach's extensive portfolio, we are unable to list all products that you may be interested in. If you need a product that is not listed on the attachment, please contact us to determine if that product meets Buy American requirements.

 **HACH ARRA HOTLINE: (800) 368-2723**

 **Email us at hachflowsales@hach.com**

 **Visit http://www.hachflow.com/meet_arra.html for Hach flow product and application information**

Please note: When requesting a quote or placing an order related to ARRA, please specify that a "Buy American" product is needed.

Hach is committed to providing our customers with the best performing systems. We look forward to partnering with you to invest in the Nation's future and to help grow our economy.
