For Immediate Release

Hach Sigma Model 920 Open Channel Flow Meter

Hach's Sigma Series Flow Meter, the Model 920, was designed for dual channel or redundant collection system flow monitoring. The meter is ideal for either permanent or portable applications. Multiple sensors for redundancy, averaging and multiple pipe monitoring, sampler pacing capabilities, and rainfall logging features available. Long battery life (over 90 days) reduces sites visits and an internal modem automates data retrieval and reporting.
